Re Item V.

- 1 Reference is made to the following document:

D1 : EP 1 073 222 A (LUCENT TECHNOLOGIES INC) 31 January 2001

2 INDEPENDENT CLAIM 1

- 2.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses (the references in parentheses applying to this document):

A method of acquiring content from an information transmission (paragraph [0006]), the method comprising the steps of:
receiving the information transmission comprising a first content and an encrypted second content (paragraph [0019], lines 36-38), which second content is a digitally storable copy of the first content (paragraph [0020]), lines 49-51);
extracting the encrypted second content comprised in the information transmission when a receiver of the information transmission effects an extracting operation (paragraph [0038]);
storing the encrypted second content at the receiver (paragraph [0036]; and
enabling decryption of the encrypted second content, whereby the second content is made renderable (paragraph [0040].

3 INDEPENDENT CLAIM 8

- 3.1 Independent claim 8 is a representation of claim 1 in terms of a device. Therefore the above argument with respect to lack of novelty of the subject-matter of claim 1 similarly applies to claim 8. Consequently, the subject-matter of claim 8 is also not new in the sense of Article 33(2) PCT.

4 DEPENDENT CLAIMS 4-7, 11, 12

Dependent claims 4-7, 11, 12 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step (Article 33(2) and (3) PCT).
